ONE paragraph

I graduated from Kashan Medical University in Nov. ۱۹۹۹ then I started practice in medicine. With no intermission, I have been employed as an physician of handicap in a handicap center , since ۱۹۹۹ for ۱ years then I had to changed my position because welfare organization need to my assistant for design strategic plan in that organization of So I have been working as a Director of design & programming in Health and Welfare Department for ۲ years then I think need to improve my skills in research therefore I employ in Vice Chancellor Research in University of Welfare & Rehabilitation . I am working for ۲ years then I interested to community based research so I prefer to this center until establish Population Research Center and I helped for Commissioning this center . I am cooperating this center for ۲ years then Consider to my favored field (geriatric) then I enjoy to Kahrizak Charity Foundation (where children handicapped or elderly individuals with no financial resources are cared) as Director of Health & manager of Geriatric team then I came back to university and finished my graduate MPH in the field of gerontology and Con-currently I am working in Iranian journal of Aging& Vice Chancellor Research in University of Welfare & Rehabilitation
